

DYN^otex faceMask tie-18

Three-layer non-sterile face mask

Key features

- Manufactured and packed in a clean room (ISO 8)
- Three-layer with integrated, mouldable nose clip
- Fastening: with ear loops
- Latex-free

Avantages

- Low particle release
- High efficiency for bacterial particle filtration
- Comfortable and extremely breathable
- High wearing comfort
- Height of face mask when unfolded: 18 cm – for better coverage of the chin and neck area

Applications

- Recommended for use in clean rooms
- Highly suitable for use in production plants
- For single use only

Article number / dimensions			
Article number	Fixation method	Length (a)	Width (b)
2051004	With ear loops	18.0 cm (± 0.5 cm)	9.0 cm (± 0.5 cm)

DYNtorex faceMask tie-18

Three-layer non-sterile face mask

Technical specifications	
Colour	White
Material	100% non-woven polypropylene
Material inner layer	Spunbond polypropylene (SBPP) 23 g/m ²
Material middle layer	Meltblown polypropylene (MBPP) 25 g/m ²
Material outer layer	Spunbond polypropylene (SBPP) 23 g/m ²

Characteristic	ASTM F2100-19 Level 1 Standard	Standard
Bacteria filtration efficiency (BFE)	≥ 99 % (large bacteria > 3.0 µm)	ASTM F2101, EN 14683
Particle filtration efficiency (PFE)	≥ 95% (large latex particulates 0.1 µm)	ASTM F2299
Differential Pressure (Delta P)	< 0.5 of H ₂ O/cm ²	EN 14683
Flammability	Class 1 flame spread	16 CFR Part 1610
Synthetic Blood Penetration Resistance ASTM F1862, ISO 22609	80 mmHg	EN 14683
APC-air particle count (≥ 0.3 µm)	2'400 counts/pc.	IEST-RP-CC003.3/B2.5

Packaging & Storage
50 pieces per inner bag, 2 x 50 (100) pieces per outer bag
20 outer bags (2000 pieces) per carton
Storage should be in a dry, well-ventilated room.

Quality system
Exclusively manufactured in a production facility certified according to ISO 9001:2015, ISO 14001:2015 and ISO 13485:2016 The plant also has an in-house laboratory certified according to ISO 17025:2018 and a Certificate of FDA registration.
